## MULTIPLE GRADES OF TABLES TO MEET ANY AMBIANCE OR BUDGET

**TEXAS HOLD 'EM** may be the best known and most popular form of poker played today.

Each player starts with 2 hole cards. There are three rounds of community cards. These are dealt face up, for every player to use, with betting after each round.

The best 5-card hand using any combination of the five community cards and two hole cards wins.

Each new hand begins with a small blind, a big blind, and a round of betting. The betting rules vary depending upon whether the game is Limit, Pot Limit or No Limit.

**PAI GOW POKER** is a variation of the Chinese domino game pai gow. The game is known for a slow rate of play and lots of pushes, resulting in low risk game. While a game of skill, most hands are obvious how to play, and it is not difficult to learn proper strategy for the rest of them. Every player plays against the same dealer hand, which often causes the table to win and lose together, resulting in a fun and social game.

**LET IT RIDE** is a relatively new poker variation, unique in that the player is not against the dealer or other players. The player is just trying to make a pair of 10's or better. Object of the game: To get a pair of 10's or better. Higher ranked hands, according to the poker hand rank, pays more.

Let It Ride is played on a blackjack sized table with one dealer. Up to 7 players can play at once. The game is played with one deck and each player and the dealer receives a 5-card hand. The table layout lists the payouts for the various winning poke hands as well as the bonus payouts when offered.

**BLACKJACK** is the most popular casino party game because it is easy to learn and fast to play. The dealer gives two cards to each player and one card face up and one down to their self. Players then take turns trying to get as close to 21 without going over. Aces are

equal to 1 or 11. Face cards are 10 and number cards are face value. The player calls "hit" to get a card or "stand" to end their turn. A player can also "double down" their bet and may only receive one card. If a player has two identically numbered cards, they may "split". They double their bet and receive more cards making 2 new hands they play. After all players turns are over, the dealer reveals their card. The dealer then hits if the total is 16 or less and stands on 17 and higher. Everyone who has a hand that beats the dealer without going over 21 wins.

**CRAPS.** Craps is a high energy dice game based on 7. The player places bets around the table. There are many places to bet. The Pass line is the main focus of the game. 7 and 11 win on this line while 2, 3 and 12 lose. All other numbers rolled make an established point. If that number is rolled again before a 7 is rolled, the bet wins. The Don't Pass line is just the opposite, 2 and 3 win where 7 and 11 loses. The Field line wins on 2, 3, 4, 9, 10, 11, and 12. 2 and 12 pay double. The Come line is playable after a point is established. It plays the same as the Pass line. The Don't Come plays like Don't Pass after the point is established. Then you also can make bets on the horn. These bets are on getting 2, 3, 11, or 12 on the next roll. Other bets include Big 6/8, C&E, Any Seven, and Craps.

AMEREVENT's craps tables are available in multiple grades in 8-ft to 12-ft lengths – suitable for 8-16 players.

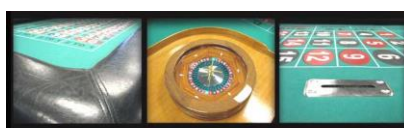

**CASINO CHIPS.** REAL 39mm 11.5 gram clay composite gaming chips are used exclusively in Amerevent casino events for real casino action and ambiance!

**ROULETTE** may be the easiest casino table game. Bet a number and wait for the ball to drop! Roulette has a number of bet variations that makes it enjoyable for either beginner or expert. In roulette the player places his chips where he wants to bet. The table has numbers 0-36 and 00 and spots for even-odd, red-black, low 18-high 18, low/middle/high 12, and the 1st/2nd/3rd columns. Bets can also be placed between 2, 3, 4, or 5 numbers and may cross bet between the additional betting areas. The dealer signals no more bets, spins the wheel and rolls a ball counter-clockwise. The ball lands in a slot on the wheel and all corresponding bets win.

## HUMAN ROULETTE

**Human Roulette** is a big, fun interactive “mechanical bull” style game, but instead of riding a bull – players ride a rotating and bucking “wheel rotor”. After 20 seconds of rotating, the operator tells the rider to “drop” and the white soccer-like roulette ball falls into a numbered space on the inflatable safety bag. Bets are placed on a side table, just like regular roulette.

**DECOR ITEMS** dozens of custom décor items and backdrops are available to dress up your event. Even better, many are FREE with an event package!
