The **MECHANICAL ALUMINUM CAN / BEER CAN / SODA CAN** ride provides a fun, BRANDABLE alternative to the mechanical bull. Folks who love challenging the mechanical now have a whole new ring to test their skills on! It is fun, safe and easy to ride --- and difficulty can be increased as the rider requests! From slow to fast the mechanical can is rideable by nearly all ages and is safe with no exposed obstructions and a fully enclosed air bag to catch any fall.

Today's mechanical rides are a terrific addition to any party and almost as much fun to watch as it is to ride! Costs have come down significantly, request a full quote with delivery at <http://quotes.amerevent.com>.

- Mechanical ride motor base, control box, air bag and blower. Just add any multi-ride body!
