#### SAFETY EQUIPMENT

**If you have \$100 in REWARDS points, you can apply them and get \$200 OFF this item!**

Many people forget to add the safety equipment to make your tent and event as safe as possible while meeting local code requirements. Because people often choose to provide this themselves (but then forget) this is your opportunity to get everything you need FREE as REWARDS items. Just say "let me have the FIRE CODE package" and you'll get DOUBLE REWARDS POINTS for what you need. Safety packages typically run \$100-\$200, but are FREE W/REWARDS.

FIRE CODE requires 10A:40BC (or better) fire extinguishers in your tent. These must be tagged yearly by a certified inspector and hung correctly. The number depends on the tent size but automatically shows in the line items of your order (although it may show "0" items ordered if you did not request them).

FIRE CODE requires tents to have means of egress (exit), the total

2 or more clearly indicated (marked) depending upon the size of the tent.

While not required by FIRE CODE, Amerevent requires any tent or enclosed area with a fuel fired heater or generator inside to have a carbon monoxide heater installed to protect occupants, the number depending upon the size of the area.
