ROTOSTAGE II/III MODULAR REVOLVING STAGE RENTAL

The Rotostage II is a new heavier-duty rebuild of the reliable Rotostage I design. Rotostage III is a smaller, less expensive modular revolving stage that's available in 10x12-ft oval or 12-ft dia. round and can hold 2,400-lb. (more if our support package is added). Rotostage II is the bigger, heavier 10x18-ft oval or 18-ft round designs with load capacities up to 5,500 pounds.

Both stages sit 16-in off the floor and are carpeted, skirted and surrounded with rope lights to create a finely finished design. Rental rates start at about \$100 per foot of length. A quiet 1-HP or 1.5-HP 120-VAC 1-PH reversible motor on a worm gear system turns the top platform at 1 RPM with other RPM's available special order.

A central special slip ring power connector provides ON-STAGE power for lights, microphones, cameras and amplifiers so they can actually ROTATE on the stage. This new design for the rotostage revolving stage turntable makes it less expensive to build or rent, less expensive to use, and easier to set-up, take-down and ship.

RENTAL ROTATING ROTO STAGE TURNTABLE

ROTOSTAGE ROTATING STAGE BENEFITS

A rotating stage adds a dynamic dimension to product display, drawing attention past others to focus on you. For theater, events and broadcast the Rotostage moving turntable stage creates incredible commercials, product launches or reveals. The audience, the product or your spokesperson can all be revolved on stage as required.

ROTATE STAGE UP TO 5-FT OFF THE GROUND

2-layers of 2-ft high heavy duty stages are available to sit Rotostages on so they can be elevated up to 5-ft off the ground. They interlock and load share so weights are safely and evenly distributed as the Rotostage turns and can include an attached ramp for vehicles and people to easily access the top decks. The weather-proof rotostage and its drive unit. The elevating staging can be used indoors or out. A subfloor is built on uneven ground so the Rotostage package can be placed on nearly any mostly flat surface.

The ROTOSTAGE II REVOLVING STAGE was trusted to unveil the \$150,000 BMW I-8 hybrid sports car at August 2015 southern US debut. A flawless display for a flawless vehicle!
