CONCEPT: Night of Blues and Fun with Speakeasy

The event hall will be divided into 3 functional parts: Cityscape, Speakeasy and Speakeasy Casino. Existing walls or movable walls will act as dividers, where not available we will use pipe and drape.

Cityscape

The Cityscape will be 35-40% of the available space and decorated with a street scene backdrop and cityscape backdrop including streetlights, park benches, trees, etc. Lighting will be subdued with accents using remote-controlled stage lighting trees. Arcade and video games will be staged through out this area. When entering this area, the other areas will not be immediately apparent. They must be "discovered". (Some hints ahead of time may be good.)

Speakeasy

One end of the Cityscape street's screen will be dressed as a brick alley with a working speakeasy wood door (slide window to for password). It can be left open or used with a door bouncer who will make people say the password for entry. Inside there will be a red carpet leading into a speakeasy night club decorated in blues and jazz décor with a Caribbean flair. A large 4-sided hardwood sports bar will occupy the center with cocktail tables spaced throughout. In one corner will be a band stage with live blues & jazz music. When live music is not playing, video karaoke will be available for lots of fun and an interactive team experience.

We can stock the bar and pass out free beverages of any kind or have a cash bar. (But your venue may require they do this.)

Speakeasy Casino

In a corner opposite the band stage, there will be gold stanchions holding red rope leading to an opening in the curtains and a short curtain hallway that blocks one's view of what is behind. A live person or standee will guard this entrance. Once inside the room opens up to a full operating casino with real poker, blackjack, craps and roulette tables as well as a dozen operating slot machines. A team of tux shirted, black bow-tied professional dealers will staff the games. One of the more fun games "Rodent Run for the Roses" will be highlighted twice in the evening (6 races of 6 thoroughbreds each or 36 total players per race program). Race programs and the racing gerbils can be customized for your attendees names for extra fun.

Casino prizes: Prizes can be given to the nights winners if wanted (so long as the players have risked no money or paid anything for entrance).

One of the pipe & drape walls can be opened to allow entry into the Cityscape area later in the evening when wanted.
